Hoang Trung Hieu

UI/UX Designer

Work experience

Meey Group UI/UX Design Specialist

Aug, 2023 - Present

My job includes:

- Designed & optimized Meey Map, Meey Atlas, Meey Finance, and Meey Land, ensuring a unified Design System.
- Worked in Agile Scrum, participating in daily stand-ups, weekly reviews, and retrospectives with cross-functional teams.
- Conducted UX research, usability testing, and A/B testing to refine user experience.

Impact:

- +35% efficiency via a streamlined design system.
- +40% conversion rate on Meey Map.
- Improved collaboration through Agile & iterative processes.

Sơn Thành Holdings UI/UX Design Remote

June, 2023 - June, 2024

My job includes:

- Redesigned & optimized the company's web app for import/export management, reducing processing time by 75%.
- Created 200+ page layouts, streamlining development workflows.
- Established a unified design system, boosting efficiency by ~37%.
- Enhanced UX & provided technical support, fixing bugs and improving usability.

Impact: Faster processing, increased efficiency, and a better user experience.

VNEXT Software UI/UX Design & Front-end Developer

March, 2021 - June, 2023

- Designed & developed outsourced products for Japanese clients, collaborating with BAs, PMs, and engineers to ensure seamless execution.
- Led UX/UI design for the company's website while supporting front-end development to accelerate project delivery.
- Optimized workflows & improved user experience, aligning with business goals and user needs.

Impact: Delivered high-quality designs, improved project efficiency, and enhanced collaboration across teams.
